

Sydney Roddick

The Two-Way Defender

HEIGHT 5'8" JERSEY #10 GPA 4.1

PLAYING STYLE

Sydney is a strong, athletic two-way outside back who impacts the game on both sides of the ball. Equally comfortable at left or right back, she combines speed, strength, composure, and a high game IQ to defend effectively in space, win 1v1 battles, and read the game early. Once possession is won, Sydney uses her speed and technical ability to carry the ball forward, break lines, combine with teammates, overlap into the attacking third, and create opportunities from the back.

Her versatility allows her to play outside back, wingback, and center back, but her defining quality is her ability to balance defensive discipline with attacking instinct. She is composed under pressure, strong in the air, clean in the tackle, and has the recovery speed and work rate to get up and down the flank throughout the game.

Sydney is also a team-first player and vocal presence on the field. Coaches trust her in different roles and situations because of her work ethic, coachability, competitiveness, and ability to understand and adapt to what the team needs. She brings energy to her teammates, communicates from the back, and takes pride in competing for the players around her.
